

# VIMAN PRO

# WHAT WE STRIVE FOR

*Help our customers create their smart factory!*

At ViManPro, we pay special attention to creating 3D simulation solutions that you can benefit from!

# THE COMPANY

- Location: **FactThory:** Smart manufacturing center
- Business area: **Benelux**
- Thor-Park: **Smart** innovation center dedicated to industry 4.0
- ViManPro background: **30 years of experience** in special machine building

# TOOLS FOR THE NEXT GENERATION

**VISUAL COMPONENTS**

▶

**NEXT GEN 3D MANUFACTURING SIMULATION TECHNOLOGY**

**VISUAL COMPONENTS**

Authorized Reseller

**AREAPLAN®** **GANTTPLAN®**

▶

**USEFUL PRODUCTS AND ADD-ONS FROM OUR PARTNER**

**DUALIS®**

ViManPro Presentation

# AT YOUR SIDE FROM START TO FINISH

## 3D SIMULATION CONSULTING

We digitalize your machines and components for simulation purposes

## DIGITAL TWIN DEVELOPMENT

From a simple 3D model to a virtual commissioning copy, we build your new virtual project

## SOFTWARE TRAINING

Do you need basic knowledge about Visual Components or want to deepen it? We're there to help!

## SOFTWARE SALES MAINTENANCE AND SUPPORT

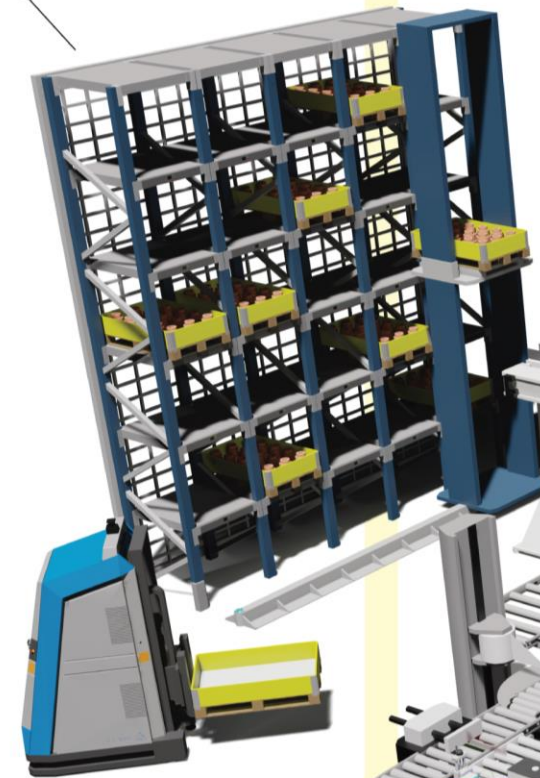

We're glad to assist you about choosing the right software and using it

# THE NEXT GENERATION OF 3D MANUFACTURING SIMULATION TECHNOLOGY.

Designed for manufacturing professionals and built on a powerful, flexible and scalable platform

2900+ components e-catalog

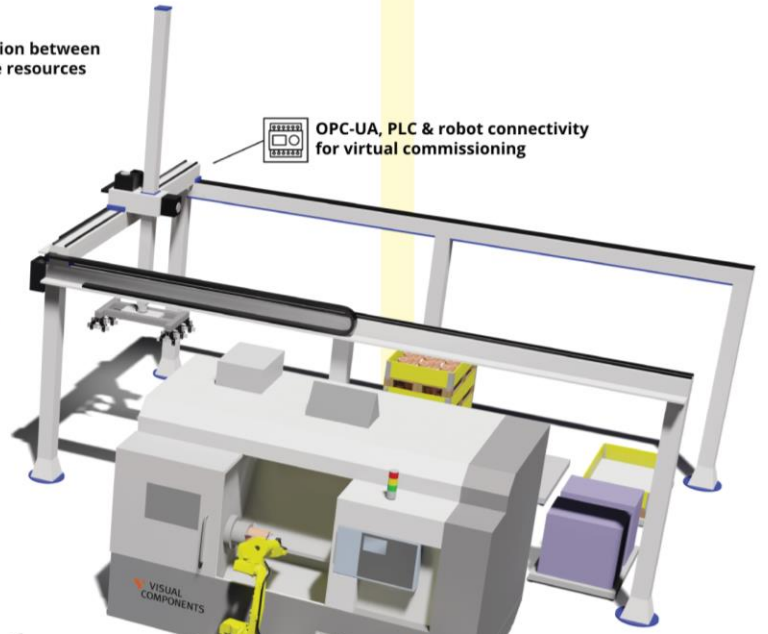

Customizable components

Interaction between multiple resources

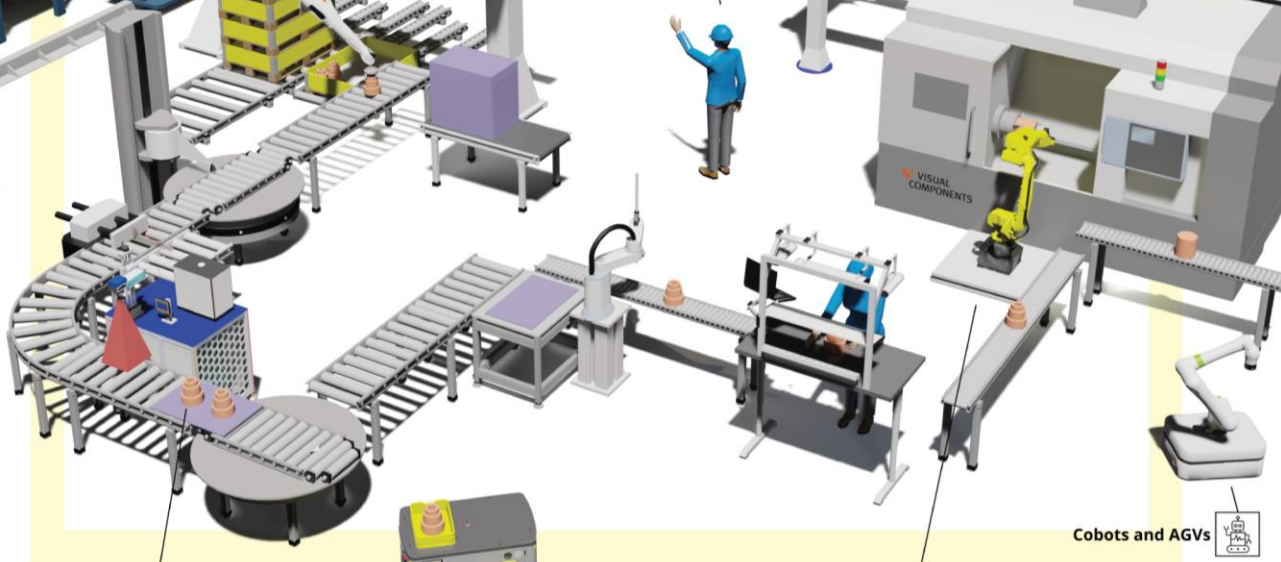

OPC-UA, PLC & robot connectivity for virtual commissioning

CAD import of own components

Quick layouting with Plug&Play function

Cobots and AGVs

3D & Virtual Reality viewer

Creation of own products & components

Physics simulation

Unified programming tool for 70+ robot brands

Implementation automation logic with process modeling or Python

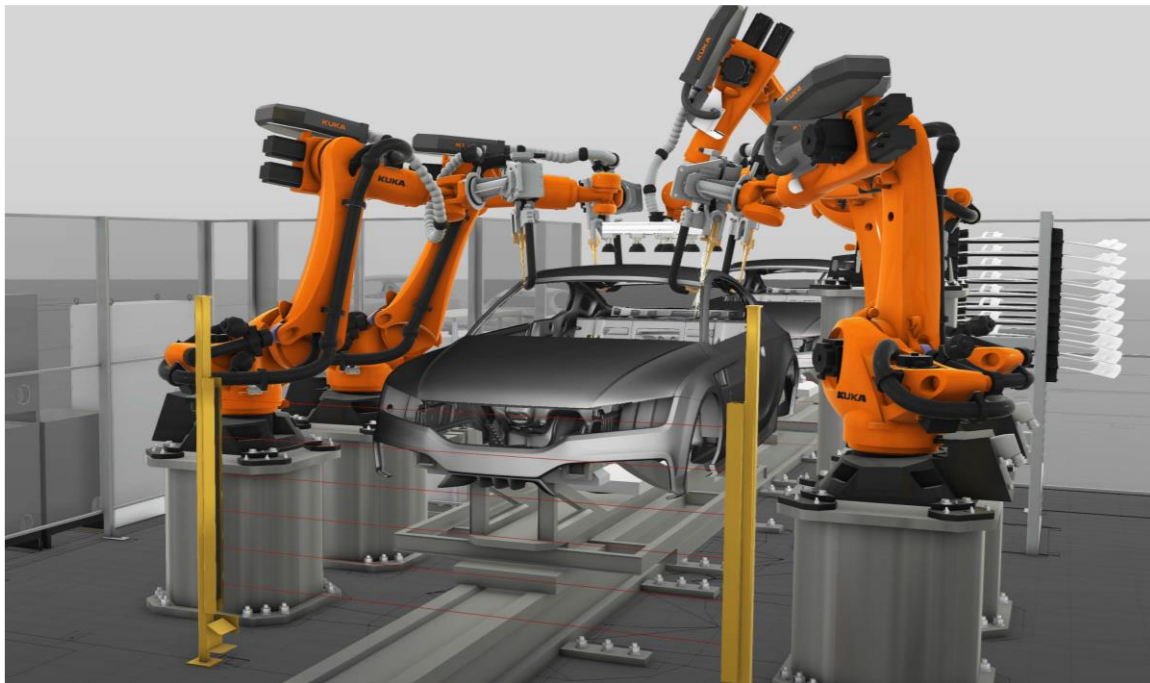

Statistical data gathering to analyze process scenarios

Simulation possibilities

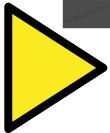

High quality image, movie and 3D pdf export

ViManPro Presentation

# 3D MANUFACTURING SIMULATION FOR

- » Optimizing production flows and processes
- » Accurate testing of robot systems
- » Minimizing risks of design errors
- » Enabling virtual commissioning
- » Boosting your sales

**WE'D LOVE TO  
HEAR FROM YOU!**
