PURCHASE

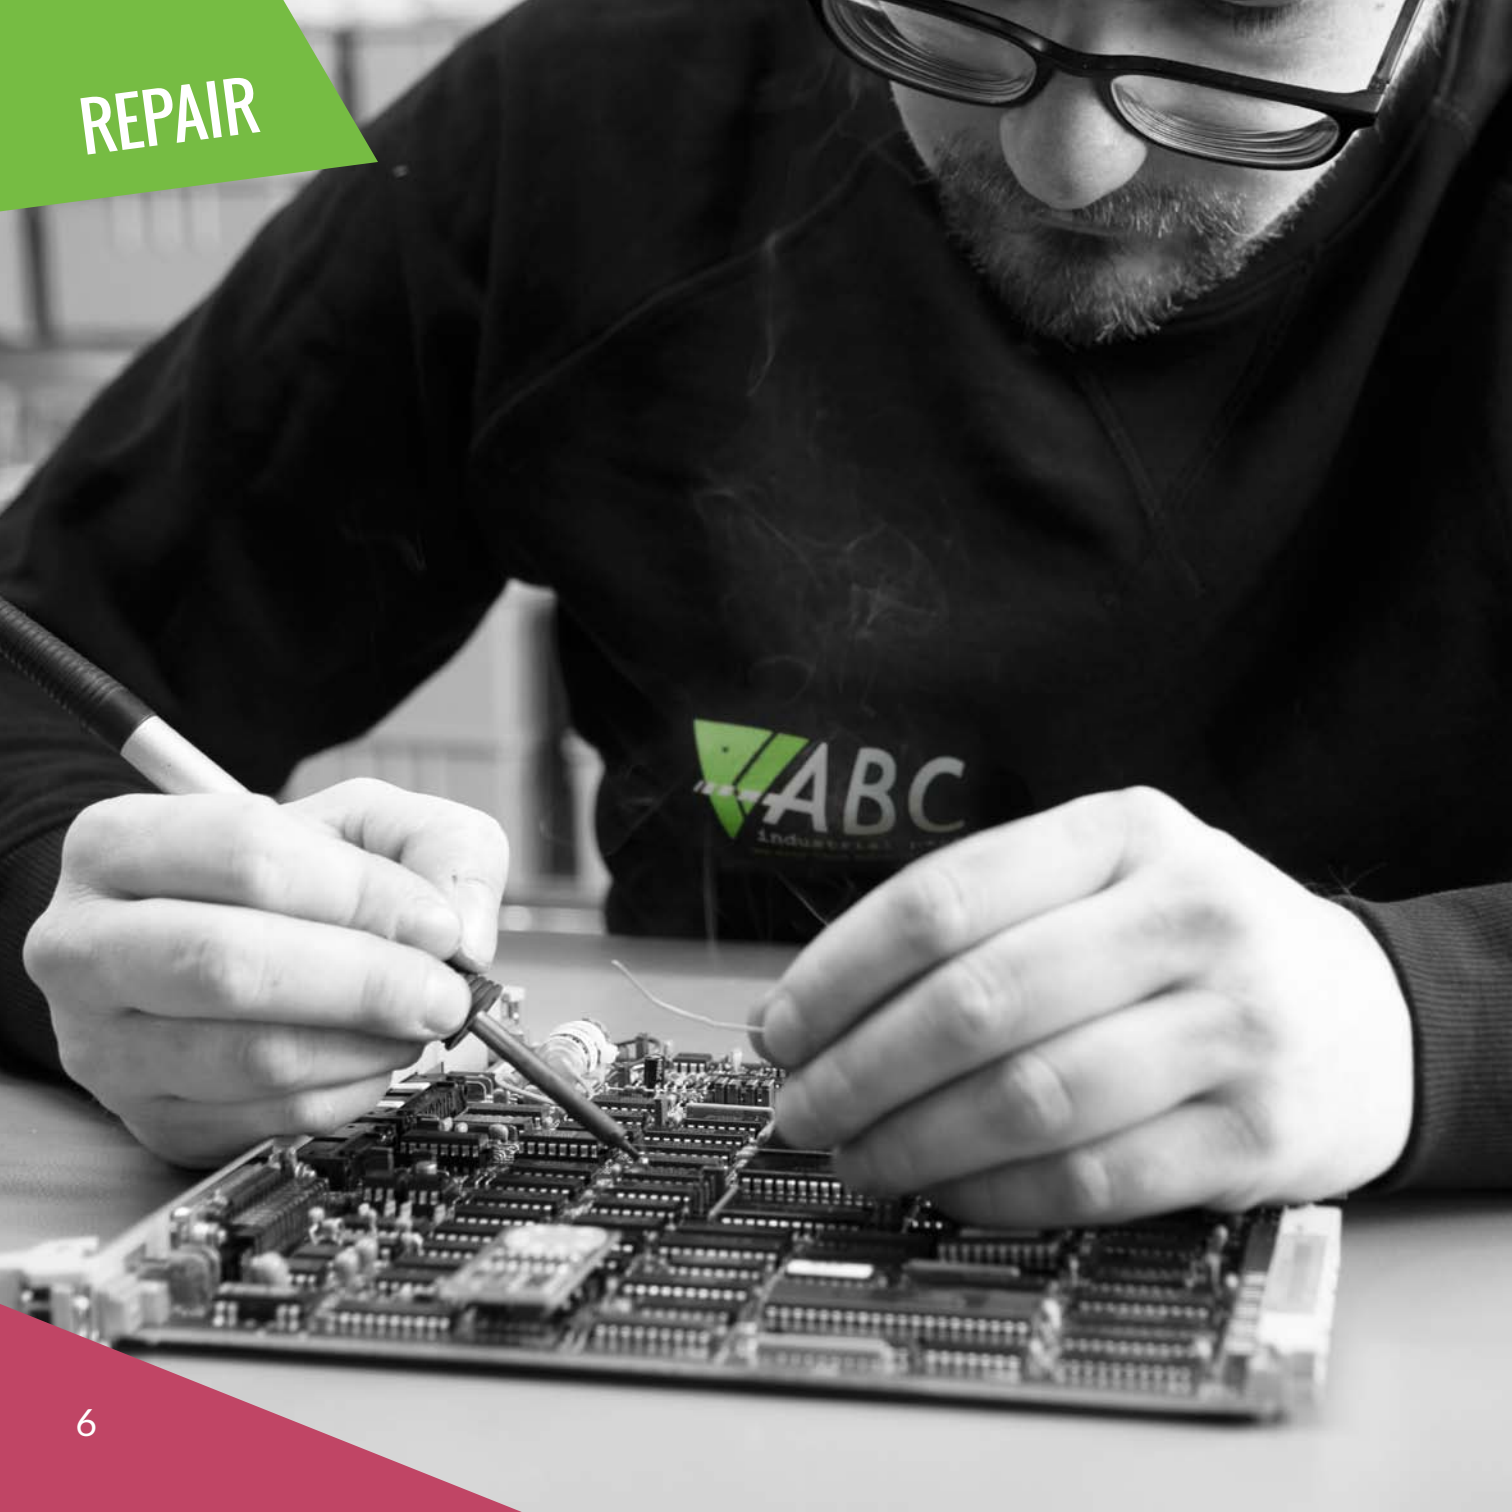

How does it work?

We operate **brand-independently** and offer a vast array of industrial electronics. By a simple click of the button, you can quickly find the desired product in **our online catalogue!**

QUICKLY BROWSE TO:  www.abcparts.be

- ✓ **UNIQUE PRODUCTS**
Modify your entire installation because some products are no longer available? Not if it were up to ABC! We have a huge stock of 'obsolete' products that are usually hard to come by.
- ✓ **ONLINE, REAL-TIME STOCK**
Do you quickly need a suitable solution? Go to our website and discover 24/7 which products can be delivered immediately. New, but also used products! Apart from that, we are always willing to swap your defective product.
- ✓ **WORLDWIDE NETWORK**
Haven't found the desired product? No problem, we will look further for you, through our worldwide partner network! This way, we save you a lot of search time.
- ✓ **1 YEAR WARRANTY**
At ABC Industrial Parts, you are given a 1 year warranty on new as well as overhauled products.

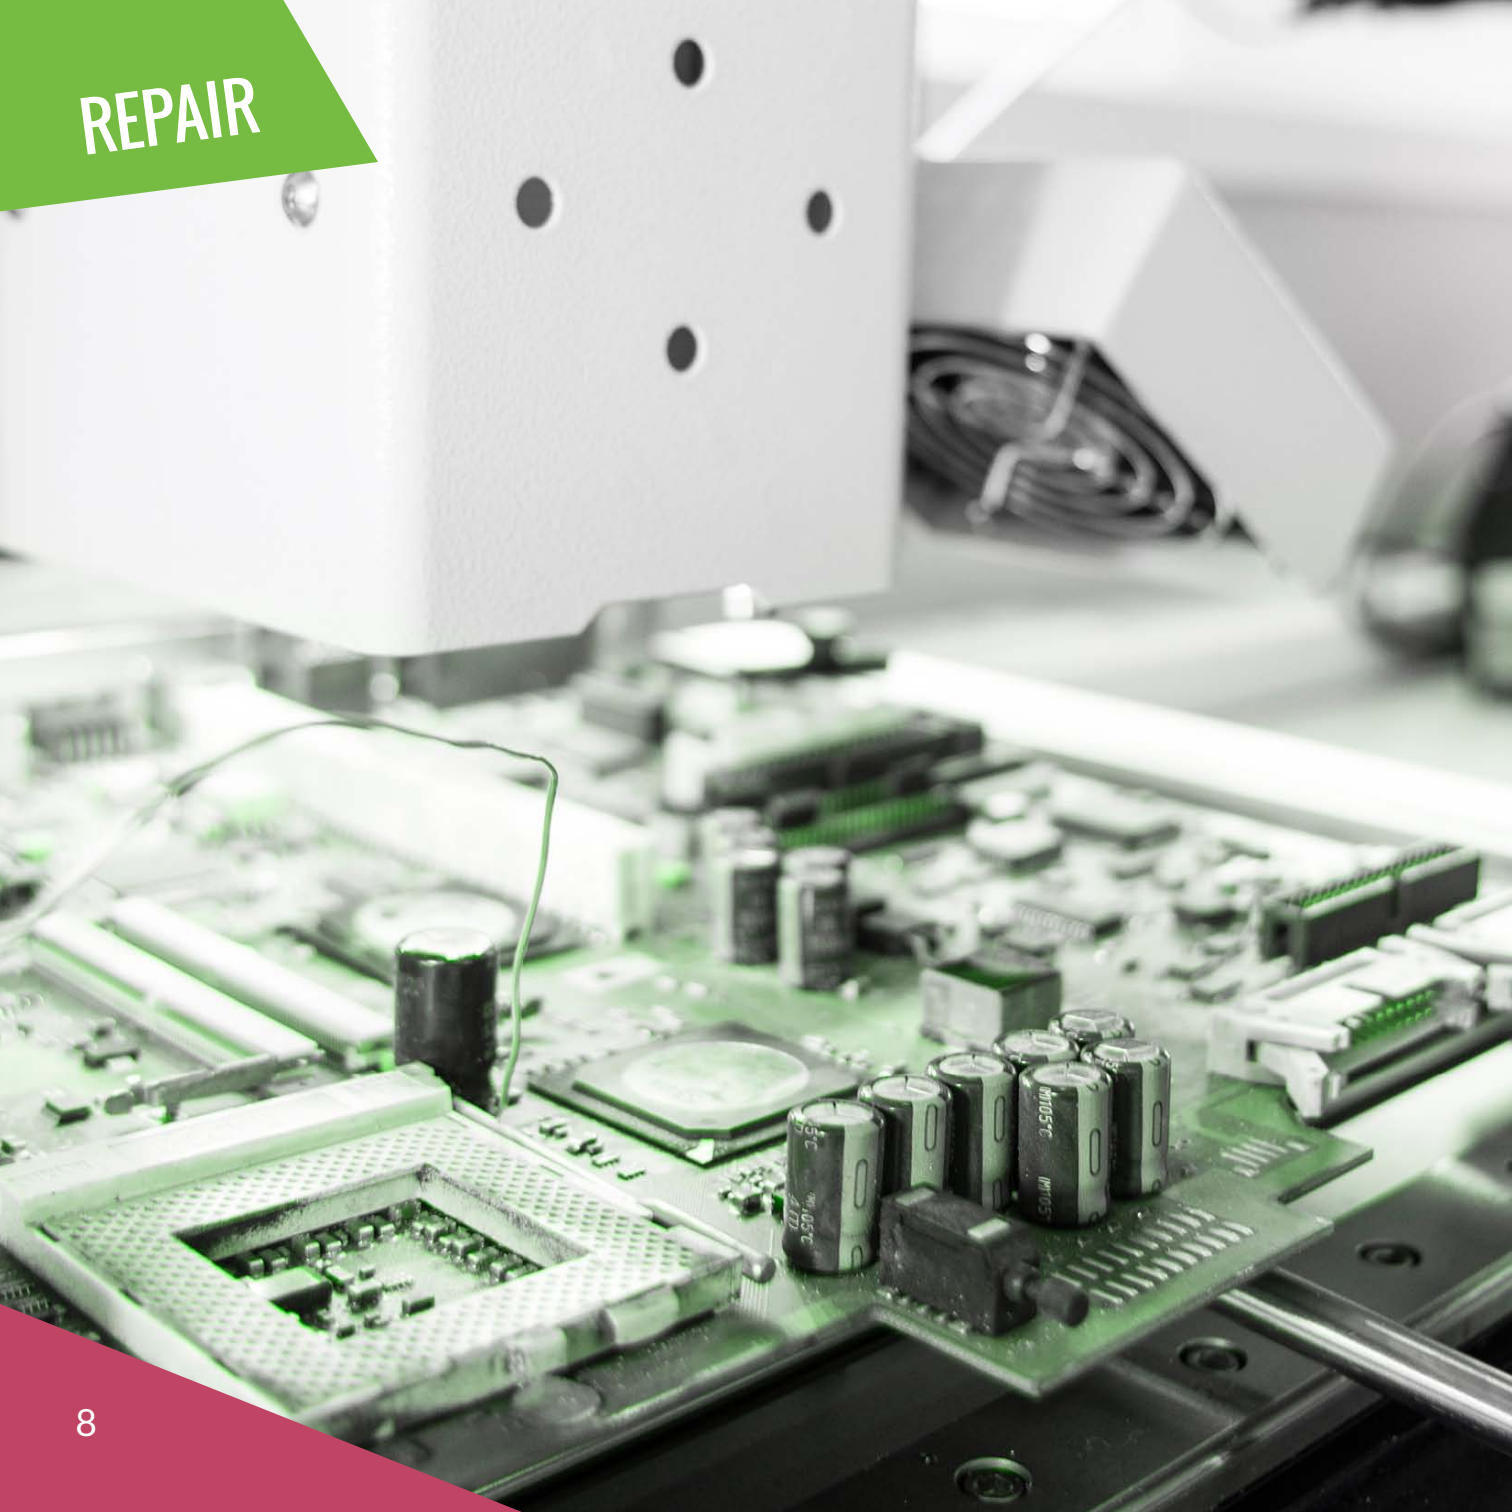

What can you expect from us?

ABC Industrial Parts has specialised in **repairing and overhauling** industrial electronics up to component level for more than 20 years. We have a team of specialised and highly trained engineers, ready to serve you!

- ✓ **FUNCTIONAL TESTING**
ABC Industrial Parts has **in-house developed testing systems**. This allows us to perform **functional tests** on your product before it is being returned to you.
- ✓ **EMERGENCY REPAIRS**
An **emergency repair** is always possible. We will do our utmost to reduce your machine standstill to a minimum!
- ✓ **BRAND-INDEPENDENT**
We do **brand-independent** repair for **various industries**. We even do 'custom made electronics'.
- ✓ **1 YEAR WARRANTY**
Thanks to thorough overhaul, we are able to give a 1 year warranty on all repairs.

REPAIR

Our formulas

LOW

- > With or without quotation
Implementation within **2 to 4 weeks**
- > Analysis and draw up of your quotation is **free of charge**, even if you will not let us perform the repair!

MEDIUM

- > Quotation **within a weeks' time**
- > In case of rejection, administrative costs will be charged

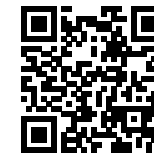

HIGH

- > **Immediate implementation**
- > Performing repair is done on a **time and expense** basis.
Should we cease the repair, then no additional costs will be charged!

How does it work?

Open the repair form.
(via our website or scan the QR code)

Complete the repair form as much as possible.

Submit the repair form together with the product.

SERVICE ON-SITE

What can be expected?

We have a specialised team of engineers that will assist you on-site and offer the best solution!

- ✓ **MINIMAL STANDSTILL**
Machine standstill **reduced to a minimum**, even for high power applications!
- ✓ **BACK-UP**
We ensure a back-up of the **parameters and software** on-site. Furthermore, we can assist you in loading the data!
- ✓ **FLEXIBILITY**
We analyse the problem and ensure **a suitable solution**.
- ✓ **TECHNICAL KNOW-HOW & EXPERIENCE**
Our on-site engineers have had years of experience and are among **our best trained engineers!** Take advantage of this know-how to quickly localise and resolve the problem!

ABC's assistance comprises:

- Problem analysis on **data buses**: ASI bus, Canbus, Profibus, Profinet, Interbus ...
- Problem analysis on **PLCs, drives & HMIs**
- Custom made PCBs
- **Industrial PCs**
- Installation of repaired and purchased products

How does it work?

Open the service on-site form.
(via our website or scan the QR code)

Complete the form as much as possible and send it via email.

Your (old) stock is valuable!

Do you have new or even old electronic equipment that you no longer make use of? Let us know and receive a generous offer! Whether it concerns PLCs, drives or HMIs, you can always contact us.

- ✓ **AVOID UNNECESSARY STOCK**
Is your electronic equipment no longer being used? Do not keep it in stock, but contact us! We will take over your stock, while you reduce costs!
- ✓ **SAVE COSTS**
Dumping stock does cost money too. Just think of discharge and recycle costs! Contact ABC and avoid these costs.
- ✓ **FREE COLLECTION**
We can visit you, take inventory of your stock, load it and take it away free of charge. Even the entire disassembly of electronic installations can be performed by us. No worries, no costs.
- ✓ **MAKING MONEY THE EASY WAY**
Send us your list of products to be taken over and we will make you an attractive offer. Take-over guaranteed!

Submit your list to purchase@abcparts.be

DID YOU KNOW THAT...

... ABC has invested in an X-ray?

Due to the miniaturisation and increased density of electronics, the use of special analysis tools is inevitable. Our X-ray is not only used for the **analysis of PCBs** and checks on **solder connections**, but also to assess the **genuineness of components**.

... ABC also performs data recovery?

ABC can help you **recovering lost or corrupt data**, in a safe and reliable way! If possible, we will make a preventive back-up, in order to avoid loss of data.

... ABC has its own courier company?

In case of urgent delivery or collection, our own drivers will ensure **reliable transport**. As such, your production can get started the very same day!

... collection is also possible outside office hours?

ABC has a **night safe with a unique access code**, allowing collections and deliveries to take also place outside office hours. Ask about the possibilities!
